【第1部】音読問題

My name is Takashi and I am a junior high school student. I met an old woman at a park. Her name is Ms. Suzuki. We were walking with our dogs. She gave some food to her dog, and mine, so I thought she was kind. We started talking about our dogs. Then she said, "I was a teacher, but now I help students as a volunteer teacher." She shared stories about her past and I told her about my school life. Now we meet at the park every week. I help her with her *smartphone, and she gives me advice about how to study English. Sometimes, we play games on our smartphones. Our dogs also have a good time. I am surprised because we have become good friends. Age is not a problem when you make friends.
