Kenji: Hi, Mika. I'm going to our school library and it will be my first time there.

Ø

Mika: Yes, of course.

(Kenji と Mika が図書館に入る)

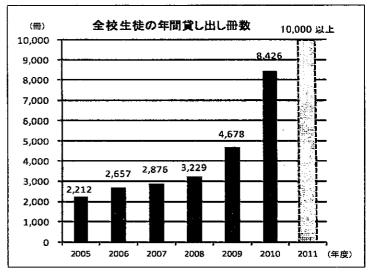

Mika: Welcome to our library, Kenji. What would you like to read?

Kenji: Well, I have to do my homework and write a science report. I'd like to borrow some science books to finish writing it tonight.

Mika: I see. Then turn left at the second corner. You'll find a lot of science books on your right.

Kenji: Thank you, Mika. You've helped me so much.

Mika: No problem. I'm happy to help you as both your friend and one of the library Look at the graph on that wall, Kenji. It shows the number of books that students in our school borrow each year. You can see the number has gone 0 2005.There are eight hundred and forty students in our school. So, if every student borrows one book every month, the number will be more than ten thousand this year, 2011. If we make this place better for students, they will come and borrow more and more books. Do you have any ideas to make students more interested in this place?

Kenji: Well, how about a concert here? Some students can play music and others can sing. Then, students think the library is a more exciting place, so the number of students who visit here will go up.

Mika: Wow, that's a good idea. I'll talk about it with others of the library committee. Thank you, Kenji. We have a lot of things to do every day, but it is important to find more time for reading.

Reading many books has a lot of good things.

Kenji: Right. I hope our library will become a better place for all of us.
